#### NOTICE OF ANNUAL GENERAL MEETING

NOTICE IS HEREBY GIVEN that the 15th Annual General Meeting ("AGM") of Global Spectrum Energy Services Plc ("the Company"), will be held at Lilygate Hotel, No. 2, Olubunmi Owa Street, Lekki Phase 1, Lagos, Nigeria, on Wednesday, 20th July 2022 at 11.00 a.m. to transact the following businesses:

#### **Ordinary Business:**

- 1. To lay before the members, the Audited Financial Statements for the year ended December 31, 2021, together with the Reports of the Directors, Auditors and Audit Committee thereon.
- To elect/re-elect directors.
- 3. To ratify the re-appointment of Olufemi Fajuyi & Co as External Auditors of the Company.
- 4. To authorize the Directors to fix the remuneration of the Auditors.
- 5. To elect shareholders members of the Audit Committee in accordance with Section 404 (2) (3) and (6) of the Companies and Allied Matters Act, 2020.
- 6. To disclose the Remuneration of Managers of the Company in compliance with Section 257 of the Companies and Allied Matters Act, 2020.

#### **Special Business**

- 7. To fix the remuneration of the Directors.
- 8. To consider and if thought fit, pass the following subjoined resolution as special resolution of the Company:
  - a) THAT pursuant to Rule 21.4 of the Issuers Rules of Nigerian Exchange Limited (NGX), shareholders hereby authorise and approve the voluntary delisting of the Company from NGX.
  - b) THAT all acts carried out by the Board of Directors of the Company hitherto in connection with the above, be and are hereby ratified.

#### **NOTES**

#### 1. PROXY

A member entitled to attend and vote at this meeting is also entitled to appoint a proxy to attend and vote in his/her stead. All instruments of proxy must be duly completed and deposited either at the office of the Company's Registrar, Africa Prudential Plc, 220B Ikorodu Road, Palmgrove, Lagos, or via email at cfc@africaprudential.com not later than 48 hours before the commencement of the meeting to enable the company stamp the proxy at its expense. A blank proxy form is attached to the Annual Report and will also be made available on the Company's website www.globalspectrumplc.com for members' ease of access.

- 2. In compliance with the Federal and State Governments' directives on social distancing and gatherings, and rules limiting social gatherings to a maximum of 20 persons, as well as the guidelines issued by the Corporate Affairs Commission (CAC) on the Holding of AGM by Public Companies by Proxy, the company has obtained the approval of the Corporate Affairs Commission to conduct the meeting by proxy only and to consider the special businesses listed above. Consequently, Shareholders are required to appoint a proxy of their choice from the list of nominated proxies below:
  - 1. Mr. Wasiu Akindele
  - 2. Mr. Chinedu Dike
  - 3. Mrs. Odunuga Samiat Adebanke
  - 4. Mr. John Williams Adebayo

The cost of stamping the proxy forms will be borne by the Company.

#### 3. CLOSURE OF REGISTER

The Register of Members and the Transfer Books of the Company would be closed from the 21st day of June 2022 to the 4th day of July 2022 (both dates inclusive) for the purpose of the AGM notice.

#### 4. NOMINATION TO THE AUDIT COMMITTEE

In accordance with Section 404 (6) of the Companies and Allied Matters Act, 2020, any member may nominate a shareholder for election as a member of the Audit Committee by giving notice in writing of such nomination to the Company Secretary at least 21 days before the AGM and any nomination not received prior to the meeting as stipulated is invalid. Such notice of nominations should be sent via email to contact@globalspectrumplc.com for the attention of the Company Secretary. The Company and Allied Matters Act as well as the Securities and Exchange Commission's Code of Corporate Governance for Public Companies provides that members of the Audit Committee should have basic financial literacy and should be able to read financial statements.

#### 5. E-DIVIDEND REGISTRATION

Notice is hereby given to all shareholders to open bank accounts, stockbroking accounts and CSCS accounts for the purpose of receiving dividend payments electronically. A detachable application form for e-dividend is attached to the Annual Report to enable all shareholders furnish particulars of their accounts to the Registrar (Africa Prudential Plc) as soon as possible.

#### 6. UNCLAIMED DIVIDEND WARRANTS AND SHARE CERTIFICATES

Shareholders are hereby informed that a number of dividend warrants which were returned to the Registrars as unclaimed are still in the custody of the Registrars. Any shareholder affected by this notice is advised to contact the Company's Registrars, Africa Prudential Plc, 220B Ikorodu Road, Palmgrove, Lagos, or via email at cfc@africaprudential.com to lay claim.

#### 7. PROFILES OF DIRECTORS

The profiles of Directors for election/re-election are published in the 2021 Annual Report for Shareholders consideration.

#### 8. E-ANNUAL REPORT PUBLISHED ON THE WEBSITE

In order to improve delivery of our Annual Report, we have inserted a detachable form in the 2021 Annual Report and hereby request shareholders to complete the form by providing their contact and any other requested details and thereafter return same to the Registrars for further processing. Additionally, an electronic version of the 2021 Annual Report is available on the Company's website at www.globalspectrumplc.com.

#### 9. RIGHTS OF SHAREHOLDERS TO ASK QUESTIONS

Pursuant to Rule 19.12 (c) of NGX, Shareholders and other Securities holders of the Company have the right to ask questions not only at the AGM, but also in writing prior to the Meeting, and such questions must be submitted to the Company at least one week before the date of the meeting.

Dated the 14th day of June 2022

By Order of the Board

#### **CHAIRMAN'S STATEMENT**

It is my pleasure to welcome our distinguished shareholders, to the 15th Annual General Meeting of your company, Global Spectrum Energy Services Plc ("the Company"). I am pleased to present to you the Audited Financial Statements and Report of your company, for the year ended 31 December 2021, which also draws your attention to the challenges in our operating environment that impacted our performance in the 2021 financial year.

#### THE GLOBAL ECONOMY

The global economy was set on recovery in 2021 following the effects of COVID-19 pandemic. However, the recovery was decelerated amid continued COVID-19 flare-ups, diminished policy support, and lingering supply bottlenecks. The economy recovery was clouded by various downside risks, including new virus variants, unanchored inflation expectations, and financial stress.

The recovery has been much more difficult to achieve than in the past because social tension has heightened as a result of the increase in inequality caused by the pandemic, and there is an increase commodity price volatility. These challenges underscore the need to foster widespread vaccination, enhance debt sustainability, tackle climate change and inequality, and diversify economic activity.

#### **NIGERIA ECONOMY**

Nigeria's economy grew in 2021 at the fastest annual pace in eight years, relying more on the non-oil sector. The performance of the economy found strength from the non-oil sector, mainly agriculture, which grew 4.73 per cent. The oil sector which contributed 7.24 per cent to the economy, declined by 8.06 per cent.

The Gross Domestic Product (GDP) expanded at 3.40 per cent in 2021, the most since 2014 when it grew at 6.22 per cent. Growth in the last quarter of 2021 was however the slowest when compared to the two previous quarters. The GDP expanded 3.98 per cent between October and December over the same quarter in 2020, less than 4.03 per cent growth rate recorded in the third quarter and 5.01 per cent recorded in the second quarter. The total GDP stood at N49.28 trillion in nominal terms (when the rate has not been adjusted for inflation), while the real GDP rose to N20.33 trillion.

#### **OUR COMPANY**

The business of the Company was impacted negatively due to continued COVID-19 flare-ups, diminished policy support, and lingering supply bottlenecks. During the year under review, there has been continued recovery in the oil price, with the average oil price at US\$70 and the year high was at US\$85. However, the company was unable to benefit from this upswing due to the off hire on some vessels in the IOC contracts.

Global Spectrum Energy Services Plc Annual Report And Financial Statements For The Year Ended December 31, 2021

While the offshore activities remained dormant, there were signs of increased activity, particularly

since the Petroleum Industry Bill legislation was passed. Thus, there have been increased activity in

terms of tenders for projects

THE FUTURE

The World Bank had projected a 2.5 per cent growth rate for Nigeria in 2022, owing to the rebound to

higher oil prices as well as accelerated growth in telecommunication and financial services.

According to the IMF 2022 report, the growth forecast for Sub-saharan Africa was downgraded to 3.7

percent and 4.0 percent for 2022 and 2023, respectively. This represents 0.1 percentage points lower

than the 3.6 percent and 3.9 percent forecast made in its October 2021 report. The report also stressed

that the new Omicron COVID-19 variant would affect most economies.

Rising energy prices and supply disruptions have resulted in higher and more broad-based inflation

than anticipated. The global growth is expected to moderate from 5.9 in 2021 to 4.4 per cent in 2022 —

half a percentage point lower for 2022 than in the October World Economic Outlook (WEO).

**APPRECIATION** 

Distinguished ladies and gentlemen, let me use this opportunity to express the gratitude of the Board

of Directors to the Management and staff of the company for their dedication in achieving the

corporate objectives of the company in the year under review. I must also appreciate our client -

companies and their shareholders for their unflinching loyalty and

continued patronage and assure them of our commitment to serve them even better. Distinguished

ladies and gentlemen, I thank you most sincerely for your attention.

Mr. Osahon Idemudia

#### ABOUT GLOBAL SPECTRUM ENERGY SERVICES PLC.

Global Spectrum Energy Services Plc was incorporated on the 14th day of March 2006 as a private limited liability company with RC. No.648014. It is an integrated Pan African Oil & Gas Servicing Company playing strategically in many of the key Oil and Gas producing areas in Africa. The company engages in complimentary Maritime Security, Logistics, Energy and Engineering Services and pioneers cutting edge technologies and innovations in these fields.

The operations of the Marine Services Division and Security Systems Division concentrate on the developing countries, especially those in West Africa including Nigeria, Ghana, Equatorial Guinea, Ivory Coast, etc. Global Spectrum also serves as intermediaries and agents for companies seeking Partnership in these areas. In the pursuit of our vision to permeate the industry, the Company by a special resolution dated 16th of July 2013, was converted from a private limited liability company to a public company. The Authorized Share Capital presently stands at N500, 000,000 (Five Hundred Million) represented by 1,000,000,000 (One Billion) units of ordinary shares of 50 kobo each which only 800,000,000 (Eight hundred Million) have been issued and fully paid up.

Global Spectrum's growth has been guided by prudence and a team of young and passionate field personnel, veteran managers and a visionary management team driven by the determination to exceed all expectations even theirs. Continuous attention to these values has resulted in long-term client relationships, which have been vital to its successful operations in the past and will prove rewarding in its activities in the future.

We have operational offices in Abuja, Lagos, and Port Harcourt Nigeria.

#### **VISION**

To become a leading Oil and Gas Servicing Company providing Maritime Security and Energy Services with regards to quality and safety whilst creating opportunities for economic growth thereby contributing to a sustainable development.

#### **MISSION**

To be the pre-eminent Pan African Marine Security Company with interests and assets that spans the Continent, while providing reliable and efficient on-shore and off-shore oil, maritime security, and marine engineering services with value to all stakeholders.

#### **CORE VALUES**

Our core business values are focused on satisfying clients' needs and requirement through delivering efficient maritime security services thereby managing assets and resources in order to maximize profits.

The Directors have the pleasure to present their report together with the Company's Audited Financial Statements for the year ended December 31, 2021.

#### 1. PRINCIPAL ACTIVITIES

The Company's principal activities are providing offshore supply vessels, security patrol vessels, lubricants sales/distribution, maritime security & protection services, ROV/diving services, subsea installation/construction, seafarers training and development services, logistics, energy, and engineering services.

#### 2. RESULT

Gross Revenue	<b>2021</b> <b>4</b> 4' <b>000</b> 1 <u>,954,292</u>	2020 <b>H</b> '000 2,219,882

Global Spectrum Energy Services Plc ("the Company") acknowledges the importance of having a strong corporate governance framework in place for the effective functioning of the company in other to achieve its objectives subject to various guidelines for the benefit of the stakeholders. The Board ensures that corporate governance framework is built around the principles of openness, independence, accountability, responsibility, fairness, and ethical conducts.

As a Public Limited Liability Company listed on the Nigerian Stock Exchange, The Company endeavours to adopt the requirements of the Nigerian Stock Exchange, Financial Reporting Act 2011, Nigerian Code of Corporate Governance 2018 (NCCG) and well as the SEC code of Corporate Governance guidelines (SCCG) in its daily activities.

Our actions and interactions with our customers, employees, government officials, suppliers, shareholders, and other stakeholders reflect our values, beliefs, and principles. The Company complied substantially with major corporate governance principles during the year under review.

#### Responsibilities of the Board of Director and Officers of the Board

The Board plays a key role in effective governance as it lies at the top end of a system of control that is focused on overseeing and challenging management and control functions. A successful company is headed by an effective Board which is responsible for providing entrepreneurial and strategic leadership, as well as promoting ethical culture and responsible corporate citizenship. The Company headed by an effective Board leads and controls the business and promotes the company's values and standards.

The Board is composed of members who are competent, fit, and proper to run the affairs of the company in their various capacities. They are conversant with the business of the company and the statutory and regulatory requirements regulating its business. The Board acts in the best interest of the company at all times and also complies with the laws of the Federal Republic of Nigeria, applicable regulations and the Company's Memorandum and Article of

The Board ensures the implementation of succession planning, Risk Management and oversees the Internal Audit function through various committees. The process of appointment of Director is conducted in terms of the company's Memorandum and Articles of Association which is also in line with the provisions of the codes as well as the recommendations made by the Governance and Remuneration Committee.

#### **Board Structure and Composition**

Experience has shown that the size of the Board is appropriate to facilitate the effectiveness of a company. The Board has a sufficient size to fulfil its role diligently and each member of the Board has the requisite skills, knowledge, diversity, experience, and independence to effectively manage the company.

During the year under review, the Board had a composition of 8(Eight) Directors with the requisite skill comprising of an appropriate mix of 2 (Two) Executive Director, 4 (Four) Non-Executive Directors, and 2 (Two) Independent Non-Executive Directors. The Board of Directors of Global Spectrum Energy Services Plc in the year under review:

S/N	DIRECTOR	TITLE
1.	Mr. Osahon Idemudia	Chairman
2.	RAdm Austin Oyagha (Rtd.)*	Executive Director, Acting MD
3.	Mr. Wasiu Akindele	Executive Director, CFO
4.	Mr. Shuaibu Mustapha	Non-Executive Director
5.	Mr. Clement Akanibo	Non-Executive Director
6.	Mr. Chidolue Okonkwo	Non-Executive Director
7.	Mrs. Comfort Otera Chigbue**	Independent Non-Executive Director
8.	RAdm Dickson Olisemenogor (Rtd.)**	Independent Non-Executive Director

<sup>\*</sup>Resigned on the 30<sup>th</sup> of September 2021.

#### **CHANGES ON THE BOARD OF DIRECTORS**

During the year under review, there were changes in the Board composition. Mrs. Comfort Otera Chigbue and RAdm. Dickson Ikechukwu Olisemenogor (Rtd.) were appointed as directors on the 29th of March 2021 through a unanimous approval of the Board, and subsequent ratification of their appointments by the members of the company at the last Annual General Meeting of the company. Also, the Company's Managing Director, RAdm. Austin Oyagha (Rtd.) resigned on the 30th of September 2021, and Mr. Wasiu Akindele was appointed as the Acting Managing Director in his stead.

#### Chairman

The Board Chairman is responsible for the overall leadership of the Company and the Board. The Chairman of the Company is a Non-Executive Director who is not involved in the day to day running of the Company.

The Chairman sets the agenda and ensures that the Director receive precise, timely and objective information for effective contribution in Board and general meetings and at the same time ensures effective communication with shareholders. During Board meetings, he encourages active engagement by all Board members and ensures that Director constructively challenge senior management. The Chairman also facilitates the effective contribution of non-executive Director thus ensuring constructive relations between executive and non-executive Director.

The Chairman in collaboration with the company secretary ensures provision for induction of new Director and continuous development programs for subsisting Director. The Chairman of the Board does not serve as the Chief Executive Director or Chairman of any Executive Board Committee. This is to allow for checks and balances and to avoid the concentration of authority on an individual. Their roles are defined in writing.

The letter of appointment of the Chairman approved by the Board and agreed to by the Chairman clearly establishes the responsibilities of the Chairman, including an assessment of the time commitment expected. The Chairman acknowledges that it is imperative to have a constructive relationship with the CEO

<sup>\*\*</sup> Appointed on the 29th of March 2021

and that a certain level of independence is maintained.

#### **Chief Executive Officer**

The Chief-Executive Officer (CEO) of the Company leads the senior management in the day to day running of the affairs of the company and is very conversant with the company's business. He was appointed by the Board considering his entrepreneurial skill, credibility, and integrity.

The Chief Executive Officer develops, drives, and delivers performance within strategic goals, commercial objectives and business plans agreed by the Board. He ensures compliance with appropriate policies and procedures and maintains an effective framework of internal controls over risk in relation to the business. He makes decisions in all matters affecting the operations, performance, and strategy of the business, except for those matters reserved for the Board or specifically delegated by the Board to its Committees. He is also responsible for the recruitment and appointment of senior management, after consultation with the Remuneration and Nomination Committee.

He is not a member of the Remuneration, Audit, Nomination and Governance committee, He is a member of the Finance and Risk Committee.

#### Executive Directors, Non-Executive Directors, and Independent Non-Executive Directors

The Executive Directors helps the Chief Executive Director on the day-to-day affairs of the company, implement and achieve the company's strategy as well as management of company's finance. The Company currently have 1 (One) Executive Director. The Non-Executive Directors of the company brings their independent judgement to the Board especially in issues of strategy and performance. The Company currently have a total of 4 (Four) Non-Executive Directors, and 2 (Two) Independent Non-Executive Directors.

#### **Company Secretary**

The company secretary is a firm composed of Legal Practitioners with relevant qualifications and competence necessary to effectively discharge its duties. Amongst other duties, the secretary ensures that it provides to the Board guidelines on how to effectively discharge their functions, coordinate training and induction program, meetings, advisory services to the Board both individually and jointly and ensures that there is total compliance with the laws, codes, and regulations.

#### Meeting of the Board and appointment to the Board

The Board meets at least once every quarter to decide on policy matters and to direct the affairs of the Company. The attendance of each director is considered for re-election. All the Directors dedicate the necessary time and attention to their duties as Directors of the company and their holding of Directorships in other companies is in line with regulatory provisions.

The Governance and Remuneration committee (a joint committee) recommends to the Board a fit and proper candidate to be appointed to the Board. The Company's Articles of Association require all Directors

to submit themselves for re-election by shareholders at each Annual General Meeting, and the shareholders are also informed in the Annual report the biographical information of the proposed director to guide their decision on appointment.

In line with corporate governance principle, the table shows the frequency of meetings of the Board of Directors and members attendance at these meetings during the year under review:

NAME	NO. OF MEETING HELD	NO. OF MEETINGS ATTENDED
Mr. Osahon Idemudia	4	4
RAdm Austin Oyagha (Rtd.)*	4	2
Mr. Wasiu Akindele	4	4
Mr. Shuaibu Mustapha	4	3
Mr. Clement Akanibo	4	3
Mr. Chidolue Okonkwo	4	4
Mrs. Comfort Otera Chigbue**	4	3
RAdm Dickson Olisemenogor	4	3
(Rtd.)**		

<sup>\*</sup>Resigned on the 30<sup>th</sup> of September 2021.

The Board of Directors held its meetings on the following dates of the year; 29th March 2021, 28th June 2021, 26th October 2021, and 30th December 2021.

#### **BOARD COMMITTEES**

In accordance with the rules, the Board delegated some of its functions, duty and responsibility to different committees which includes the Governance and Remuneration, Audit and Risk Management.

#### **Governance and Remuneration Committee**

This committee is composed of Independent Non- Executive Director and Non-Executive Directors and are responsible for recommending fit and proper individuals to the Board for appointment on the Board and considers the overall remuneration packages (including pension) of the Executive Director with the aim of recognising best practice, aligning with shareholder objectives, and encouraging behaviours to maintain the long-term success of the business.

The committee recommended to the Board the nomination and appointments of Mrs. Comfort Otera Chigbue and RAdm Dickson Olisemenogor (Rtd.) as Independent Non-Executive Director after reviewing the qualification of potential candidates. The committee made sure that the size and composition of the Board is not less than the number in its articles and the codes of corporate governance.

Annually, the committee puts in place a succession plan and policy which serves as a guideline to regulate the appointment of Board members and senior management. This Committee is also responsible to periodically assess the skills, knowledge, and experience of individual Director and of the Board collectively and report on this to the Board. The Committee perform its role regarding 'fit and proper' assessments of present and

<sup>\*\*</sup> Appointed on the 29th of March 2021

prospective Board Members.

A remuneration policy is in place to ensure that the Director of the company are properly remunerated to attract, motivate, reward, and retain them but at the same time not too excessive. The Shareholders approves the remuneration of the Non-Executive Director and Independent Non-Executive Directors. The remuneration policy and the remuneration of all the Director are disclosed in the company's Annual report.

During the year under review, Mr. Osahon Idemudia was the Chairman of the committee until his appointment as Chairman, Board of Directors, and RAdm Dickson Olisemenogor was subsequently appointed as Chairman in his stead.

\*Mr. Osahon Idemudia was the Chairman of the committee until his appointment as Chairman, Board of Directors.

#### The Finance and Risk Board Committee

The committee is composed of 2 (Two) Non-Executive Director and 1 (One) Executive Director. The committee is responsible for the proactive risk management policy, ensures that the company has a structured and appropriate approach to risk. Each area of the business has a clear focus to identify, evaluate and manage and review risk in line with strategic priorities and risk appetite. The risk management process is overseen by the finance and risk committee. The committee meets once every quarter.

At the Executive management level, a committee is created and chaired by the Chief-Executive officer who is responsible for risk at the operational level. Also, a Risk officer was appointed to provide advice to the Board indirectly on all risk issues affecting the company and at the same time reports to the Chief-Executive Officer and the Chief Finance Officer, he is always in attendance at the meeting of the Risk Committee.

	HELD	ATTENDED
Clement Akanibo - Chairman	4	4
Chidolue Okonkwo	4	4
Chief Joel Kroham	4	4
Mr. Ezekiel Chaka	4	4
Mr. Joel Akinola Adeleke	4	4

#### **Induction and Continuous Education**

There is a formal induction program for newly appointed Director and a continuous program for continuing Director to assist in the effective discharge of their duties.

The induction of Directors takes place immediately after his/her appointment to the Board, the purpose is to familiarize themselves with the company's business, services and how it operates. An annual training and orientation plan has been put in place by the Governance and Remuneration Committee for that purpose which contains the different orientation needed by the Executive Director and Non-Executive Director and continuous training programmes.

#### **Board Evaluation**

All members of the Board are evaluated both individually, jointly and as a committee. Internal Board evaluation was also carried out by the Governance and Remuneration Committee and the Company Secretary through a Board Effectiveness Questionnaire.

The amount of time that the Non-Executive Director are expected to commit to discharge their duties is agreed on an individual basis at the time of appointment and reviewed periodically thereafter. The time commitment agreed takes into account whether the appointee is the chairman or a member of a Board committee(s).

In evaluation the days of commitment and the performance of the Director are considered, and the result of the evaluation is communicated and discussed by the Board as a whole.

#### Relationship with Shareholders

The Company recognizes dialogue with shareholders and constructive use of Annual General Meeting. The Executive Director engage proactively with analysts, investors, and shareholders to promote mutual understanding of objectives and to ensure their views are communicated to the Board as a whole.

The Company maintains an on-going communication with its shareholders on its strategy and performance in order to enhance trust and confidence in the company. During the period underreview, the company issued various company announcements and media releases to explain ongoing corporate developments and material events and transactions that have taken place and their impact in the company.

The company communicates with shareholders in the following ways:

- through the 'Annual Report and Accounts' which is provided to shareholders;
- through the publication of company announcements and media releases; and
- at the Annual General Meeting and Extraordinary General Meetings.

All information that aids the effectiveness and participation of shareholders are sent out promptly and all shareholders are given the opportunity to ask questions during the general meetings. The company maintains an open channel of communication with its shareholders through the Company Secretarial Office.

The Board ensures at all times a transparent dealing with shareholder's associations and ensures equitable treatment of all shareholders especially the interest of minority.

#### **Business Conduct and Ethics/Ethical Culture**

The company has in place a business conduct and ethics policy which is approved by the Board. The policy is designed to ensure that ethical standards and behaviours are maintained within the company. The policy is reviewed periodically where the need arises.

The Company also has in place policies on the following: Insider trading, related party transactions and conflict of interest policy which is uploaded on the Investors portal of the company's website.

#### Sustainability

The Board continues to recognise that the Company has a role within, and responsibility towards, the community it serves. To discharge these roles and responsibilities, during 2021 the company utilize its resources in order to carry out a series of initiatives and projects designed to provide value to various sectors within the community.

From an environmentally friendly perspective, the company continued to take several measures to raise its commitment to support a sustainable environment for the community and for future generations.

#### **Transparency/Disclosures**

The company has in place a communication policy which is posted on the company's website (Investors Portal). The information to the shareholders is clear and written in a language that is easily understood. The Company make disclosures to the shareholders through the Investor portal of the website and through its Annual Report.

Independent Auditor's Report

To the Members of Global Spectrum Energy Services Plc.

On the Audit of the Company Financial Statements

For the year ended December 31, 2021.

#### **Our opinion**

In our opinion, the financial statements give a true and fair view of the financial position of Global Spectrum Energy Services Plc. (the company) as at 31 December, 2021, and of the financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) and the requirement of the Companies and Allied Matter Act and the Financial Reporting Council of Nigeria Act.

#### What we have audited

Global Spectrum Energy Services Plc.'s financial statement comprises:

- The statement of financial position as at 31 December, 2021:
- The statement of profit or loss and other comprehensive income for the year ended;
- The statement of changes in equity for the year ended;
- The statement of cash flows for the year ended; and
- The notes to the financial statements, which include a summary of significant accounting policies.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs), our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statement section of this report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for professional Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

#### **Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Key matter

#### How our Audit addressed the key audit matter

#### **Cash and Cash Equivalents**

This was considered to be of the most significant in our audit due to the high balances as at the year ended.

Accounting for about 32% of the year's turnover, this was considered to ensure there were no risk of pressure on management to increase the asset value of the company for external financing purposes.

We obtained the bank statements for the period with a view to ensuring that there no suspicious deposits that were not related to the company's operations.

Also, clearances after year end of trade receivables were carried out while confirming the deposits into the bank statements.

We reviewed the company's year end balances with the bank confirmation letters to ensure that there were no overstatement of the foreign currency balances for the period under review.

#### Other information

The directors are responsible for the other information. The other information comprises: Company overview, our business, Chairman's statement, Director's reports, corporate governance report, Statement of Director's responsibilities, Report of audit committee, Directors reports, Statement of value added, five-year financial summary, Notice of annual general meeting (but does not include the financial statements and our audit report thereon).

Our opinion on the financial statement does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially consistent with the financial statement, or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that facts. We have nothing to report in this regard.

#### Responsibilities of the directors and those charged with governance for financial statements.

The directors are responsible for the preparation of the financial statements in accordance with International financial Reporting Standard and the requirement of the Company and Allied Matters Act, and the Financial Reporting Council of Nigeria Act and for such internal control as management determines is necessary to enable the preparation of financial statement that are free from material misstatements, whether due to fraud or error.

In preparing the financial statement, management is responsible for assessing the company's ability to continue as a going concern disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operation or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company financial reporting process.

#### Auditor's responsibilities for audit of the financial statements

Our responsibilities are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement whether due to fraud or errors, and to issue an auditor's report that include our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatement can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decision of users taken on the basis of these financial statements.

As part of an audit in accordance with ISA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also

- Identify and assess the risks of material misstatement of the financial statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud or error is higher than for one resulting from error, as fraud may in volve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for purpose of expressing an opinion on the effectiveness of the Company internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosure made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exist related to events or condition that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exist, we are require to draw in our auditor' reports to the related disclosure in the financial statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to date of our auditor's opinion. However, future events or condition may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of financial statements, including the disclosures, and whether the financial statements—represent the underlying transaction and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the statements.
- We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion

We provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were most significant in audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law of regulation precludes public disclosure about the manner or when, in extremely rare circumstance, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefit of such communication.

#### Reports on other legal and regulatory requirements

The Companies and Allied Matter Act require that in carrying out our audit we consider and report to you on the following matters. We confirm that:

- i) We have obtained all information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- ii) The company has kept proper book of accounts, so far as appears from our examination of those books and return adequate for our audit have been received from branches not visited by us;
- iii) The company's statements of financial position, profit or loss and other comprehensive income are in agreement with the book of accounts;

#### NOTES TO THE FINANCIAL STATEMENTS

#### 1. General Information

Global Spectrum Energy Services Plc. is a Public Liability Company incorporated in Nigeria. The registered address of the company and its principal activities are disclosed in the 'Reporting Entity' page.

- 2. Application of new and revised International Financial Reporting Standards (IFRSs)
- 2a. New and revised IFRS that are mandatorily effective for the year ended December 31, 2021.

## Amendments to IFRS 7, IFRS 9, IAS 39, IFRS 4 and IFRS 16: Interest Rate Benchmark Reform – Phase 2

The amendments provide temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free rate (RFR). The amendments include a practical expedient to require contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest. The practical expedient is required for entities applying IFRS 4 that are using the exemption from IFRS 9 (and, therefore, apply IAS 39) and for IFRS 16 Leases, to lease modifications required by IBOR reform. The amendments also permit changes required by IBOR reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued. Any gains or losses that could arise on transition are dealt with through the normal requirements of IFRS 9 and IAS 39 to measure and recognise hedge ineffectiveness. In addition, the amendments provide temporary relief to entities from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component. These amendments had no impact on the interim condensed consolidated financial statements of the Group as (i) it does not have any interest rate hedge relationships; and (ii) the cessation date for publication of the IBORs to which the borrowings are exposed is expected to be after 31 December 2021.

## 2b New and revised IFRS that are not mandatorily effective (but allow early application) for the year ended December 31, 2021

The company has not applied any of the new and revised IFRSs issued by the International Accounting Standards Board (IASB) that are not mandatorily effective for an accounting period that begins on or after January 2021, (but allow early application). Hence, no impact on the amounts reported in the disclosures.

**IFRS 17 - Insurance Contracts** (1 January 2023) IFRS 17 was issued in May 2017 and applies to annual reporting periods beginning on or after 1 January 2023. The new IFRS 17 standard establishes the principles for the recognition, measurement, presentation and disclosure of Insurance contracts within the scope of the Standard. The objective of IFRS 17 is to ensure an entity provides relevant information that faithfully represents those contracts. This

information gives a basis for users of financial statements to assess the effect that insurance contracts have on the entity's financial position, financial performance and cash flows.

Amendments to IAS 1: Classification of Liabilities as Current or Non-current - Effective for annual periods beginning on or after 1 January 2023.

**Amendments to IFRS 3 Business Combination:** Reference to the Conceptual Framework - Effective date for annual periods beginning on or after 1 January 2022.

Amendments to IAS 37 Onerous Contracts: Costs of Fulfilling a Contract - Effective date for annual periods beginning on or after 1 January 2022.

Amendments to IAS 16 Property, Plant and Equipment: Proceeds before intended use - Effective date for annual periods beginning on or after 1 January 2022.

Amendments to IFRS 9 Financial Instruments - Fees in the '10 per cent' test for derecognition of financial liabilities - Effective date for annual periods beginning on or after 1 January 2022

Amendments to IAS 8 Accounting Policies and Accounting Estimates: Definition of Accounting Estimates - Effective date for annual periods beginning on or after 1 January 2023.

**Amendments to IAS 41 Agriculture - Taxation in fair value measurements** - Effective date for annual periods beginning on or after 1 January 2022.

**Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2**- Effective date for annual periods beginning on or after 1 January 2023.

#### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A). Statement of Compliance

These financial statements have been prepared in accordance with the Financial Reporting Council Act 2011 and the International Financial Reporting Standards (IFRSs).

The financial statements were authorized for issue by the Board of Directors of Global Spectrum Energy Services Plc. on **March 24, 2022.** 

#### **Basis of Measurement**

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of available-for-sale financial assets, and financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.

#### **Functional and Presentation Currency**

These financial statements are presented in Nigerian Naira, which is the company's functional currency. Hence, the financial statements are presented in Naira and all values are rounded to the nearest thousands, except otherwise indicated.

#### B) Reporting Foreign Currency Transactions in the Functional Currency

A foreign currency transaction is a transaction that is denominated or requires settlement in foreign currency, including transactions arising when the company:

Renders services whose price is denominated in a foreign currency;

- Acquires or disposes assets or incurs or settles liabilities denominated in foreign currency;
   and
- Borrows or lends funds when the amounts payable or receivable are denominated in foreign .currency.

#### **Initial Recognition**

Foreign currency transactions shall be recorded, on initial recognition in the functional currency, by applying to the foreign currency amount, the spot exchange rate (i.e. the prevailing exchange rate) between the functional currency and the foreign currency at the date of the transaction. The date of transaction is the date on which the transaction first qualifies for recognition in accordance with the International Financial Reporting Standards (IFRSs).

The functional currency is the currency of the primary economic environment in which the company operates, which is the Nigerian Naira.

#### Reporting at the end of subsequent reporting periods

At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date (i.e. the closing rate).

Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined.

Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

#### **Recognition of exchange differences**

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated at initial recognition during the period or in previous year's financial statements are recognized in profit or loss in the period in which they arise.

#### C) Financial Instruments

The Financial instruments of the company consist of financial assets, financial liabilities and equity instruments. Each component of the financial instrument is classified on initial recognition in accordance with the substance of the contractual arrangement and the definitions of a financial liability, a financial asset and an equity instrument.

#### .1 Financial assets

#### a. Initial Recognition and Measurement

The company recognized financial assets in its statement of financial position when it becomes a party to the contractual provision of the instrument

At initial recognition, financial assets are measured at fair value plus, in the case of assets at fair value through profit or loss, directly attributable transaction costs.

#### b. Subsequent Measurement

The subsequent measurement of financial assets depends on their classification. This classification is based on the objectives of the company's business model and the contractual cash flow characteristics of the financial assets.

The objectives of its business model are to operate:

- Energy and Engineering Services;
- Sales of Lubricants;
- Maritime Security/Protection Services; and
- Subsea Installation and Construction.

Based on these objectives, the financial assets of the company are classified into the following categories:

- Cash & cash equivalents;
- Financial assets at fair value through profit or loss;
- Loans and receivables;
- Held-to-maturity investments; and
- Available for sale investments.

#### (i) Cash and cash equivalents

Cash (currency) is a financial asset because it represents a medium of exchange and is therefore the basis on which all transactions are measured and recognized in the financial statements.

Demand deposits and other short-term investments like fixed deposits are financial assets because they represent the contractual right of the depositor to obtain cash from the bank or draw cheque or similar instrument against the balance in favour of a creditor in payment of a financial liability. Consequently, cash and cash equivalents in the statement of financial position comprise cash on hand, cash at banks and short-term deposits with a maturity of three months or less.

Bank overdrafts are included in current liabilities as part of short-term borrowings in the statement of financial position.

#### (ii) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets that meet either of the following conditions:

- (a) It meets the definition of held for trading;
- (b) It is designated at fair value through profit or loss at inception.

#### **Held-for-trading financial assets**

Financial assets are "Held-for-trading" if acquired principally for the purpose of selling or repurchasing them in near term (i.e. to generate profit from short-term fluctuations in price or dealer's margin), or on initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit taking

#### Designated at fair value through profit or loss at inception

Financial assets designated at fair value through profit or loss at inception, are those that are:

- Held to match liabilities that are linked to changes in fair value of these assets. The
  designation of these assets at fair value through profit or loss eliminates, or significantly
  reduces a measurement or recognition inconsistency (sometimes referred to as 'an
  accounting mismatch') that would otherwise arise from measuring assets or liabilities or
  recognizing gains and losses on them on different bases; or
- Managed and whose performance is evaluated on a fair value basis. Information about these financial assets is provided internally on a fair value basis to the company's key management personnel.

#### (iii) Loans and receivables

Loans and receivables represent a contractual right to receive cash in the future. Hence, they are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These arise when the company provides money or services directly to a debtor with no intention of trading the receivables. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method, less impairment losses.

The amortized cost of a financial asset is the amount at which the financial asset is measured on initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount recognized and the maturity amount, minus any reductions for impairment of financial assets. **The carrying amount represents its fair value**.

The prepayments and receivables of the company have no basic loan features and they are also not managed on a contractual yield basis. As a result, they are subsequently measured at their invoiced amounts.

#### c. De-recognition of financial asset

Financial assets are de-recognized when the contractual right to receive cash flows from the investments have expired or on trade date, when they have been transferred and the company has also transferred substantially all risks and rewards of ownership.

Non-cash financial assets pledged, where the counterparty has the right to sell or re-pledge the assets to a third party, are classified as pledged assets.

#### d. Impairment of financial assets

A financial asset or group of financial assets is impaired and impairment losses are recognized if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

#### e. Assets carried at amortized cost

At the end of each reporting period, the company assesses whether any objective evidence of impairment exists for individual financial assets that are individually significant and also for individual or group of financial assets that are not individually significant. If the company ascertains that no objective evidence of impairment exists for an individually assessed

financial asset, whether significant or not, it then includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment.

Financial assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in the collective assessment of impairment. If there is objective evidence that an impairment loss on a financial asset measured at amortized cost has been incurred, the amount of the loss is measured as the difference between the assets' carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognized in profit or loss. If any debt has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

When a receivable from client is uncollectible, it is written off against the related provision for impairment. Such amounts are written off after all the necessary procedures have been completed and the amount of the loss has been determined. Subsequent recoveries of amounts previously written off decrease the amount of the provision for loan impairment in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the previously recognized impairment loss is reversed by adjusting the allowance account. The reversal shall not result in a carrying amount of the financial asset that exceeds what the amortized cost would have been had the impairment not been recognized at the date the impairment is reversed. The amount of the reversal is recognized in profit or loss.

#### f. Assets carried at fair value

At each reporting date, the company assesses whether there is objective evidence that a financial asset or a group of financial assets carried at fair value is impaired. In the case of investments classified as available-for-sale, a significant or prolonged decline in the fair value of the security below its initial cost is considered in determining whether the assets are impaired.

If any such evidence exists for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in profit or loss – is removed from comprehensive income and recognized in profit or loss.

Impairment losses recognized in profit or loss on equity instruments that are classified as available-for-sale are not subsequently reversed through profit or loss, any increase in fair value subsequent to an impairment loss is recognized in other comprehensive income. However, if in a subsequent period the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the

impairment loss was recognized in profit or loss, the impairment loss is reversed through profit or loss.

#### g. Gains or losses

Gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are included in profit or loss in the period in which they arise.

Gains or losses arising from changes in the fair value of available-for-sale financial assets are recognized in comprehensive income, until the financial asset is derecognized or impaired at which time the cumulative gain or loss previously recognized in comprehensive income is recognized in profit or loss.

Interest income, calculated using the effective interest method, is recognized in profit or loss except for short term receivables where the recognition of interest would be immaterial.

Dividends on available-for-sale equity instruments are recognized in the profit or loss when the company's right to receive payment is established.

#### .2 Financial Liabilities

#### Initial recognition and measurement

The company recognized financial liabilities in its statement of financial position when and only when it becomes a party to the contractual provision of the instrument.

At initial recognition, financial liabilities are measured at their fair value minus, (in the case of a financial liability not at fair value through profit or loss,) transaction costs that are directly attributable to the issue of the financial liability.

#### Financial Liability

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to the company's individual or corporate clients or another company. The Company's financial liability is basically Trade and other payables.

#### (I) Trade and Other Account Payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers.

They are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

The other account payables consist of the liabilities due to regulatory bodies and service providers. They are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities.

#### (ii) De-recognition of financial liabilities

Financial liabilities are de-recognized when they are extinguished (i.e. when the obligation is discharged, cancelled or expires).

#### .3 Offsetting financial assets and liabilities

A financial asset and a financial liability are offset and the net amount reported when, and only when, an entity has a legally enforceable right to set off the amounts, and intends either to settle on a net basis or simultaneously.

The difference between the carrying amount of a financial liability (or part thereof) extinguished or transferred to another party and consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

#### .4 Equity Instrument

An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

The equity instrument of the company consists of its own equities only.

#### .5 Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Hence, the fair values of quoted investments and unit trusts in active markets are based on current market prices. Since actual market prices are available in determining fair values, no significant estimates or valuation models are applied in determining the fair value of quoted financial instruments.

#### Fair value hierarchy

To increase consistency and comparability in fair value measurements and related disclosures, IFRS 13 establishes a fair value hierarchy that categorises into the following three levels, the inputs to valuation techniques used to measure fair value:

#### **Level 1 Inputs**

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the company can access at the measurement date. A quoted price in an active market provides the most reliable evidence of fair value and shall be used without adjustment to measure fair value whenever available except circumstances arise that would not allow this.

#### **Level 2 inputs**

Level 2 inputs are inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

#### **Level 3 inputs**

Level 3 inputs are unobservable inputs for the asset or liability.

#### .6 Effective interest method

The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees on

points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

#### D. Property, Plant and Equipment (PPE)

Property, plant and equipment and other tangible assets are stated in the statement of financial position at cost at the date of transition to IFRS less accumulated depreciation and any accumulated impairment losses (if any). Cost includes expenditures that are directly attributable to the acquisition of the asset.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

#### Depreciation

Depreciation on assets is calculated using the straight-line method to allocate their cost to their residual values on a systematic basis over their estimated useful lives. The average useful lives are as follows:

Buildings - 50 years

Plant and equipment - 5 years

Furniture and fittings - 5 years

Marine Equipment - 20 years

Motor Vehicles - 4 years

Each part of an item of the office equipment, furniture and other tangible assets with a cost that is significant in relation to the total cost of the item is depreciated separately.

The asset's residual values, useful lives and depreciation method are reviewed on an annual basis, and are adjusted if appropriate.

An asset's carrying amount is written down to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains or losses on disposals are determined by comparing proceeds with the carrying amount. These are included in profit or loss in the period of the disposal.

#### De-recognition of property, plant and equipment

An item of property and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of

the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is de-recognized.

#### E. Investment Property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, used in the production or supply of goods or services or for administrative purposes or occupied substantially for use in the operations of the enterprise and/or members of the Company. An occupation of more than 15% of the property is considered substantial.

The Company recognizes investment property as an asset when, and only when it is probable that the future economic benefits that are associated with the investment property will flow to the Company; and the cost of the investment property can be measured reliably.

#### Initial recognition and measurement

At initial recognition, the investment property shall be measured at its cost. Transaction costs shall be included in the initial measurement.

#### Subsequent measurement

After initial recognition, the company shall measure its investment property at fair value.

#### <u>Disposal</u>

An investment property shall be derecognized (i.e. eliminated from the statement of financial position) on disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals.

#### **Gains or losses**

Gains or losses arising from the retirement or disposal of investment property shall be determined as the difference between the net disposal proceeds and the carrying amount of the asset and shall be recognized in profit or loss in the period of the retirement or disposal.

#### F. Impairment of Non-Financial Assets

An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

#### G. Inventories

The company's inventories consist of consumable material parts for its equipment. They are stated at the lower of cost and estimated net realizable value. The cost of the consumables is calculated using the weighted average method. Net realizable value represents the estimated selling price less all estimated costs to sell.

#### H. Provisions

Provisions are liabilities of uncertain timing or amount, and are recognized when the company has a present obligation as a result of a past event, and it is probable that the company will be required to settle that obligation.

Provisions are measured at the Directors' estimate of the expenditure required to settle that obligation at the end of each reporting period, and are discounted (at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability) to present value where the effect is material.

Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

#### I. Taxation

The tax for the period comprises current and deferred tax.

Tax is recognized in the income statement, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case the tax is recognized in other comprehensive income or directly in equity, respectively.

#### **Current tax payable**

The tax currently payable is based on taxable profit for the year and it comprises of the company income tax and education tax.

Taxable profit differs from net profit as reported in the income statement because it exclude s item of income or expenses that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

Global Spectrum's liability for the company income tax is calculated using tax rates that have been enacted or substantively enacted at the statement of financial position date, while the education tax is charged at 2% of the assessable profits.

#### **Deferred tax payable**

Deferred tax is the tax expected to be payable or recoverable on difference between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which deductible temporary difference can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. The carrying amount of deferred tax assets is reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to recover. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realized. Deferred tax is charged or credited to the income statement, except when it relates to items charged or credited to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority.

Global Spectrum Energy Services Plc. intends to settle its current tax liabilities on a net basis.

The deferred tax assets are presented as non-current assets while the deferred tax liabilities are presented as non-current liabilities in the statement of financial position.

#### J. Employee Benefits

#### **Pension Fund Obligation**

The company operates a **'Defined Contribution Plan'** in compliance with the Pension Reform Act (2014), wherein the employees contribute 8% of their basic salary, housing and transport allowances. The company as an employer also contributes 10% of total basic salaries to each employee's chosen Pension Fund Administrator (PFA).

The company has no further payment obligations once the contributions have been paid.

Furthermore, the company has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees, the benefits relating to employee service in the current and prior periods.

The contributions are recognized as employee benefit expense when they are due.

#### **Short-term employee benefits**

The cost of short-term employee benefits (those payable within 12 months after service is rendered) such as paid vacation, leave pay, sick leave and bonuses are recognized in the period in which the service is rendered and is not discounted.

The expected cost of short-term accumulating compensated absences is recognized as an expense as the employees render service that increases their entitlement or, in the case of non-accumulating absences, when the absences occur. The expected cost of bonus payments is recognized as an expense when there is a legal or constructive obligation to make such payments as a result of past performance.

Provisions for leave pay and bonuses are recognized as a liability in the financial statements.

#### K. Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for services provided in the normal course of business net of VAT and other related sales taxes. Revenue is recognised in these p hases:

- a) Identity the contract(s) with customers
- b) Identify the performance obligations in the contract
- c) Determine the transaction price
- d) Allocate the transaction price to the performance obligations in the contract
- e) Recognise revenue when/ (as) the entity satisfies a performance obligation.

#### L. Dividend Distribution

Dividends on the Company's ordinary shares are recognized in equity in the period in which they are approved by the Company's Shareholders. Dividend distribution to the Company's shareholders is recognized as a liability in the financial statements in the year which the dividend is approved by the Company's Shareholders.

#### M. Share Capital

The share capital of the company consisted of eight hundred million (800,000,000) ordinary shares that are classified as equity and are recorded at the proceeds received net of incremental external costs directly attributable to the issue.

#### 4. RISK MANAGEMENT

#### 4.1 Introduction

As a "Maritime Operator", risk management is central to the company's strategic management.

Risk Management is the process whereby the company methodically addresses the risks attaching to its activities with the goal of achieving sustained benefit within each activity and across the portfolio of all activities. In view of this, the objective of the company's risk management process is the identification and treatment of these risks with the objective of adding maximum sustainable value to all its activities so as to give value to its clients.

The Board of Directors acknowledges its responsibility for establishing, monitoring and communicating appropriate risk and control policies.

#### 4.2 Significant risks

The Company has exposure to significant risks which are categorized as follows:

- Vessel Wreck/Hijack Risk.
- Regulatory risk (capital adequacy, licensing, legal, taxation and financial reporting);
- Business environment (reputation and strategic);
- Operational risk (people, information technology and internal control processes);
- Market risk (equity prices, interest rate and currency);
- Credit risk;
- Liquidity risk; and
- Cash flow risk.

#### 4.3 Detailed Disclosure of Significant Risks

#### 4.3.1 Vessel Wreck / Hijack Risk

This is the risk that the vessel might not be able to come to shore. This can sometimes occur in Nigeria like any other country of the world. This is usually caused by mechanical problems developing in the course of sail. The weather condition and changes thereafter may also account for the problem. Also, there are pirates who tend to hijack vessels around the world; they lie in wait for any available ship or vessel.

Based on the experience of the management, the following steps are taken to forestall crashes.

- Adequate training of all cabin members. All captains attend trainings based on the internationally laid down frequencies.
- The clearance is always obtained for the regulatory agencies at the port before boarding.
- Adequate maintenance of the vessels and equipment is not negotiated by the management.
- The safety/security department is adequately equipped and precautionary measures are taken on all recommendations.
- Every staff member is safety conscious and is advised to report any damage noticed immediately.

So far, the company has not recorded any wreck since commencement of business.

#### 4.3.2 Regulatory Risk

Regulatory risk is the risk arising from a change in regulations in any legal, taxation and accounting pronouncements or specific aviation industry regulations that pertain to the business of the company. The risk types include capital adequacy, licensing, compliance, legal, taxation and financial reporting.

To manage this risk, the company is an active participant in the maritime industry and preferred bodies, such as Nigerian Maritime Administration and Safety Agency, Nigerian Content Development and Monitoring Board, Nigerian National Petroleum Corporation and also the Department of Petroleum Resources. Furthermore, the company ensures compliance with authorized capital requirements within the industry, Federal and state tax laws, and financial reporting standards.

#### 4.3.3 Compliance risk

Compliance risk is the risk of legal sanctions involving material losses, financial losses or reputational loss that the company may suffer as a result of its failure to comply with local & international laws, industry-specific regulations, code of conduct and best/good practice.

The Board of Directors are conscious that the energy and maritime industry is highly regulated and that the impact of non-compliance with National & International laws could lead to heavy penalties and above all, loss of reputation. Therefore, the company's policy is zero-tolerance for default in compliance with regulatory requirements in all its ramifications.

#### 4.3.4 Legal risk

Legal risk is the risk that the company will be exposed to contractual obligations which have not been provided for. The company has a policy of ensuring that all contractual obligations are documented and appropriately evidenced to agreements with the relevant parties to the contract.

All significant contracted claims are reviewed by independent legal resources and amounts are provided for, if there is consensus as to any possible exposure.

At 31 December, 2020, the Directors are not aware of any significant obligation not provided for.

#### 4.3.5. Taxation risk

Taxation risk is the risk of loss arising as a result of an incorrect interpretation and application of tax laws or due to the impact of new tax legislation on existing products of the company. The risk category consists of the following risk types:

- Transactional risk;
- Operational risk;
- Compliance risk; and
- Accounting risk.

#### <u>Transactional risk</u>

Transactional risk is the risk of loss that could arise from non-compliance with transaction-based taxes like Value Added Tax (VAT), Withholding Tax (WHT), Capital Gains Tax (CGT) and Stamp Duty. This risk manifests itself through the payment of penalties and interest on non-remittance of the taxes charged to the Federal Inland Revenue Service (FIRS). To manage this risk, the company ensures that the relevant taxes are remitted before the due dates.

#### Operational risk

This is the risk of loss that could arise as a result of not considering the effect of tax implications on the strategic and short-term management decisions of the company.

To manage this risk, the tax implications of every decision being made by the Board of Directors and or management must be considered before the approval of the Board or Board resolution is passed.

#### **Compliance risk**

This is the risk of non-compliance with the requirements of the Company Income Tax Act (CITA) and Education Tax Act (ETA).

The probability of this risk is very low as the company ensures that immediately at the end of annual financial audits, the computed tax due is filed with the Federal Inland Revenue Service.

#### Accounting risk

Accounting risk is the risk of inadequate provisioning for income taxes in the financial statements of the company that could result into additional assessments by the Federal Inland Revenue Service and by implication, more taxes and wastage of internal resources.

Therefore, to manage this risk, the company ensures that:

- All taxes due by the company are correctly identified, calculated, paid and accounted for in accordance with relevant tax legislations;
- The company continually reviews its existing operations and planned operations in this context; and
- The company ensures that, where clients participate in company products, these clients are either aware of the probable tax consequences, or are advised to consult with independent professionals to assess these consequences, or both.

The identification and management of tax risk is the primary objective of the company's tax function, and this objective covers the specific requirements of each category of tax to which the company is exposed, in the context of the various types of activities that the company conducts.

#### 4.3.6 Financial reporting risk

Financial reporting risk is the risk of loss that could arise as a result of material misstatements and/or errors in the company's financial statements; due to inadequate internal controls, and incomplete documentation.

The Board of Directors' strategy to mitigate this risk is by the use of effective and reliable accounting systems, accounting policies as well as the establishment of proper internal accounting controls to ensure that its financial statements are prepared in a transparent manner that fully discloses all important and relevant matters as well as accurately reflecting the financial position, results and cash flows of the company.

#### 4.3.7 Business environment

#### 4.3.7.1 Reputational risk

Reputational risk is the risk of loss that could arise as a result of decline in the reputation of the company or any of its specific business units from the perspective of its stakeholders (i.e. its shareholders, customers, staff, business/technical partners or the general public).

In order to manage this risk, the Board of Directors considers the reputation of the company very seriously and therefore established a policy of 'prompt in carrying its operations. In addition, the company conducts periodic self-assessment through its robust customer-feedback program, spot checks to dictate its media climate.

#### 4.3.7.2 Strategic risk

Strategic risk is the risk of an unexpected negative change in the company's value, arising from the adverse effect of executive decisions on both business strategies and their implementation. This risk is a function of the compatibility between strategic goals, the business strategies developed and resources deployed to achieve those goals. It also includes the ability of management to effectively analyze and react to external factors, which could impact the future direction of the relevant business units.

The company's risk management function identifies and assesses both these risks qualitatively and quantitatively as part of a quarterly evaluation and on the basis of the evaluation, creates an overview of local and global risks in tandem with the risk profile of the company. It thereafter analyzes the risks and proffer suitable and relevant mitigation strategy.

#### 4.3.7.3 Operational risk

Operational risk is the risk of direct or indirect loss resulting from inadequate or failed internal processes, people and systems or from external events. To manage this risk, the initiation of all transactions and their administration are conducted on the foundation of segregation of duties that has been designed to ensure materially the completeness, accuracy and validity of all transactions.

These controls are augmented by management and executive review of control accounts and systems, electronic and manual checks and controls, back-up facilities and contingency planning. The internal control systems and procedures are also subjected to regular internal audit reviews.

#### 4.3.7.4 Market risk

Market risk is the risk of losses due to factors that negatively impact the overall performance of the financial market. It includes asset-liability mismatching risk, currency risk, interest rate risk and equity price risk.

Global Spectrum Energy Services Plc.is highly exposed to market risk through its financial instruments. This risk is therefore periodically assessed by means of a number of stress tests that are designed to examine the elements that comprised market risk.

Details of each element of the market risk and how they are being managed are as shown below:

#### Asset - liability mismatching risk

Asset-liability mismatch occurs when the financial terms of the company's assets and liabilities do not correspond. The mismatch has the high probability of resulting into liquidity risk to the company as its assets are relatively liquid with listed equities and cash being easily realizable. Therefore, to manage this risk, the liquidity requirements and cash resources of the company are reviewed on a monthly basis.

#### **Currency risk (Foreign Exchange)**

This is the potential for financial loss from currency conversions and exchange rate fluctuations as the company's operations occur mainly in Nigerian Naira, US Dollars and British Pounds Sterling. This risk has a high propensity to hamper the company to operate smoothly and/or tip the scale of its operations to profitable situation or one of a loss.

The risk is mitigated through cross currency matching of revenues to cost while minimizing currency conversions by applying foreign currency earnings to foreign currency costs and local currency earnings to local currency costs.

#### **Trade & Other receivables**

The management ensures that the receivables conversion cycle is minimized to mitigate the risk of loss as a result of default of other parties in fulfilling their obligations.

#### 4.3.8 Liquidity risk

Liquidity risk is the risk that the company will encounter difficulty in raising sufficient funds that could ensure safe and sustainable services. To mitigate this risk, the company ensures monthly compliance with the requirements of the regulatory body, on 'Financial Health'.

#### 5. Sensitivities

Management applies a number of sensitivity tests to the earnings of the company to better understand the exposure to and importance of each of the main drivers of its profitability. The main drivers of the company's profitability are lease rentals, vessels cost and equipment hiring.

IFRS 7 requires the management of Global Spectrum Energy Services Plc.to report on the changes in the profit after tax following "reasonable possible" changes in each of the factors to which the company is exposed. Therefore, the management has set the upside and downside movements for each factor at a level which represents the amount by which management believes that factor could reasonably change over the year following the valuation date.

Management believes this represents in some sense what is "reasonably possible", though it is important to note that this opinion is based on past experience and the tested range is not sensitive to all of the relevant information in the market at the reporting date.

Management has considered the impact of upside and downside movements in foreign exchange rates in relation to these sensitivities to be as follows:

- The earnings are sensitive to changes in both the shape and level of the yield curve.
   Management has not considered changes in the shape of the yield curve due to several constraints although this may be reviewed in the following year;
- The foreign exchange movements have been considered together in the same sensitivity.
   Observed historic negative correlations between factors would tend to dampen the effects presented.

These correlations are not very large and they have not been adjusted for. This treatment has resulted in the presentation of a slightly more extreme view of what could reasonably occur over the following year. Future rates of expense inflation, catastrophes and tax assumptions were considered but no sensitivities are presented as it is unlikely, in management's opinion that, these assumptions will change over the following year.

It should therefore be noted that the impact of the drivers on the profit after tax is very high resulting into a minimal profit after tax despite the large turnover made by the company.

6.REVENUE	2021 otes N'000	2020 N'000

For: Rayfield Associates **Company Secretary** 

Number of shares held: -This card is to be signed at the venue in the presence of the Registrar.

#### **NOTES:**

- 1. A member entitled to attend and vote at this meeting is also entitled to appoint a proxy to attend and vote in his/her stead. However, in compliance with the Federal and State Governments' directives on social distancing and gatherings, and rules limiting social gatherings, as well as the guidelines issued by the Corporate Affairs Commission (CAC) on the Holding of AGM by Public Companies by Proxy, the company has obtained the approval of the Corporate Affairs Commission to conduct the AGM by proxy ONLY
- 2. This proxy form has been prepared to enable you exercise your vote. All executed proxy forms must be duly completed and deposited either at the office of the Company's Registrar, Africa Prudential Plc, 220B Ikorodu Road, Palmgrove, Lagos, or via email at <a href="mailto:cfc@africaprudential.com">cfc@africaprudential.com</a> not later than 48 hours before the commencement of the meeting to enable the company stamp the proxy at its expense. A blank proxy form is attached to the Annual Report and will also be made available on the Company's website <a href="www.globalspectrumplc.com">www.globalspectrumplc.com</a> for members' ease of access.
- 3. If the shareholder is a company, this proxy form should be signed by the duly authorized officer of the company and sealed with the common seal of the company. In the case of joint holders, the signature of any one of them will suffice, but the names of all joint holders should be shown.
- 4. It is a requirement of the law under the Stamp Duties Act, Cap S8, Laws of the Federation of Nigeria, 2004, that any instrument of proxy to be used for the purpose of voting by any person entitled to vote at any meeting of shareholders must be stamped by the Commissioner for Stamp Duties. However, in compliance with the CAC Guidelines for conduct of AGM by Proxy, The Company has made arrangement at its cost, for the stamping of the duly completed and signed proxy forms submitted to the Company's Registrars within the stipulated timeline.
- 5. The proxy must produce the Admission Form sent with the Report and Accounts to gain entrance into the Meeting.
